LATHAM RASPBERRY

This is the most wonderful raspberry that has been introduced in many years. A good healthy grower, absolutely hardy everywhere and produces enormous crops of the largest berries, often measuring an inch across. Do not fail to plant it. Fine plants, 10¢ each, 75¢ per ten, $6 per hundred.
THE GREAT MONITOR PLUM

A Japanese crossed with the native plum. Certainly a dandy. Equal to a California plum in quality. Delicious to eat out of hand or to preserve and tree is absolutely hardy anywhere in Wisconsin or Minnesota. If you want plums, plant Monitor. Best of the Wonderful Minnesota New Plums.
DEAR FRIENDS AND HOME LOVERS:

With the coming of spring we begin to think about fixing up the dooryard a bit and putting out a few hardy shrubs or some hedging. Ten or a dozen assorted shrubs, right set, or some hedging around the house, will greatly improve the looks of things. The price of such stock is now so reasonable that they are within the reach of all.

And the fruit garden should not be neglected. A good patch of red raspberries and a strawberry bed is the inalienable right of every farmer’s wife. See that she has it.

Purple leaf Maples, Mt. Ash, and the Weeping Birch add charm and beauty to the front yard as ornamental trees.

"Plan to Plant another Tree."

OUR MOTTO: We don’t intentionally send out any stock that we wouldn’t want to plant ourselves, but sometimes in the rush of filling orders, mistakes will occur which we stand ready to rectify.

Conditions and Terms

Order at Once. Make sure of getting what you want by ordering early.

Terms Cash or C. O. D. The prices given in this catalogue are for quantities named, and cancel all previous quotations.

Shipping. We make no charge for packing, boxing, etc., and all stock is delivered to forwarders in good order, properly labeled and correctly packed. Freight and express charges are in all cases paid by the purchaser.

Plants by Parcel Post. Gooseberries, currants, raspberries, blackberries, strawberries, grapes, shrubs, roses, peonies, and vines, in limited quantities, can be cheaply sent by parcel post. As we have no method of telling what the postage on your shipment will be until packed, ready to go, we suggest that when your order is sent by mail, you agree to refund the postage due us on receipt of your stock.

Light apple trees can also be sent by parcel post, but large apples, pears, cherries, plums, and shade trees should in all cases be shipped by freight or express.
Apples

Each 10 100

4 to 6 feet ........................................ $0.40 $3.50 $32.00

Those starred (*) are the hardiest kinds.

Summer Apples

*Duchess of Oldenburg—Good size, yellow, streaked red, juicy, rich, sub-acid, productive. Valuable for market.

Golden Sweet—Large, pale yellow, tender, sweet.

Lowland Raspberry—Russian origin; clear white, shaded crimson, most beautiful apple; flesh white, hardy, long lived. Ideal for home use. Fruit of quality.

*Red Astrachan—Large, beautiful deep crimson. Valuable for market.

*Tetofsky—Medium, yellow, striped red, fine for eating. The best early summer apple.

*Yellow Transparent—Earliest and best; white, tender, juicy, sprightly, sub-acid.

Autumn Apples

Alexander—A large, beautiful red apple.

Autumn Strawberry—Tender, juicy, productive, fine for home orchard.

*Charlamoff—Hardy, thrifty, spreading grower, early and regular bearer. Fruit similar to Duchess; better quality, hangs to tree better. A choice dessert apple.

Lowell, or Greasy Pippin—Large, golden yellow with waxy skin; delicious quality. The finest eating apple.

St. Lawrence, or Fall Stripe.—Large, streaked red and greenish yellow; fine quality. Tree hardy.

*Wealthy—Originated in Minnesota. Hardy. Vigorous and very productive.

*Wolf River—Large, handsome; yellow shaded and striped red, juicy, pleasant, spicy flavor, very hardy. Our biggest apple.
Hoeing Gang and Block of Ten Thousand Fruit Trees Growing for You

Winter Apples

**Ben Davis**—Large, handsome, striped, valuable.

**Cortland**—New, highly recommended from New York.

**Delicious**—Good size, fine quality. Tree good grower and hardy.

**Pamela**—(Snow)—Medium, deep crimson, flesh white, of best quality.

**Gano**—An improved Ben Davis, nearly covered with deep, dark red.

**Grimes' Golden**—Good size, yellow, of highest quality, very productive.

**Golden Russet**—Medium, dull russet, quality the best. Tree enormous and early bearer. Valuable for the market.

**Hubbardston**—Large reddish russet, crisp, juicy.

**Jonathan**—Medium, red, extra quality.

**McIntosh**—Medium size, dark red, good quality, juicy, sub-acid.

**Northwestern Greening**—Hardy, yellow, rich, of good size, extra long keeper.

**Northern Spy**—Large, striped, mild, sub-acid and tender, with a rich, delicious flavor.

**Pewaukee**—A hardy winter apple, good grower and keeper.

**Salome**—Long keeper, annual bearer, medium and uniform size; good quality.

**Seek-No-Further**—(Westfield)—Medium to large, round, striped with dull red, russet dots; fine grain, tender, rich and excellent.

**Stayman's Winesap**—A very popular winter apple. Largely planted.

**Tallman Sweet**—Medium, yellow, rich. Good keeper.

**Windsor**—Large, oblate slightly conical, light greenish yellow covered with marbled dull red and russet; fine grained, spicy, sub-acid. Very good.

**Winter Banana**—A beautiful golden yellow, crimson cheeked apple with a decided banana flavor. Tree hardy.

We can also supply **Yellow Bellflower**, **Pound Sweet**, **Bailey Sweet**, **Maiden's Blush Perry Russett**, **Willow Twig** and **Wagner**.

**Crab Apples**

**Dwarfs, Howell, Seckel, Flemish Beauty, Anjou, Bartlett.**

- **Anjou**—Large, buttery, melting, rich vinous. The best late fall and early winter variety.
- **Bartlett**—Large, buttery, juicy, high flavored, great bearer; very popular.
- **Clapp's Favorite**—Very large, yellow and red, with russet specks, melting rich.
- **Flemish Beauty**—Large, juicy, rich; one of the hardiest and most popular.
- **Howell**—Large, yellow, with red cheek, rich, sweet, melting, early bearer, productive.
- **Keiffer**—Its large size, handsome appearance and remarkable keeping and shipping qualities make it exceedingly profitable for market. Very hardy.
- **Seckel**—Small, skin rich, yellowish brown, when fully ripe, with deep brownish red cheek; flesh very fine grained, sweet, exceedingly juicy, melting, buttery, one of the richest favored pears known.
- **Sheldon**—Medium size; yellow, with a richly shaded cheek; flesh a little coarse, melting, juicy, with a very brisk, vinous, highly perfumed flavor; of first quality. Tree vigorous, erect and handsome, hardy and productive.

## Russian Apricots

50c each—$4.75 per 10

These are quite distinct from the European varieties, hardier and will produce fruit when other apricots fail. Recommended where peaches cannot be grown. They are early bearers and productive.

**Superb**—A hardy seedling from Kansas. The best flavored, most productive, hardy apricot yet produced. Golden yellow.
Cherries

Probably no trees in the North are more prolific and the fruit is always in great demand, usually at a high price. Every home-garden should contain at least five or six cherry trees.

**Dikeman**—From Northern Michigan. The original tree has attained large size and is still producing immense crops; fruit large, black, firm, of excellent quality; fine keeper and shipper; the latest of all sweet cherries.

**Dyehouse**—A very early and sure bearer; ripens a week before Early Richmond.

*Early Richmond*—An early variety of extreme hardiness, bearing large annual crops of medium sized fruit, light to dark red, very juicy.

**English Morello**—Large, dark red, juicy, tree somewhat dwarf in growth.

*Montmorency*—Large, bright crimson, very juicy, strong, upright grower and one of the best late varieties.

*Napoleon*—Large, pale yellow or red; firm, juicy, sweet and productive.

We are glad we can offer you this season, these remarkable creations of the Minnesota Fruit Breeding Farm. Produced by crossing the Native Plums with the Japanese variety.

**Monitor**—Of largest size and most delicious quality; annual bearer and perfectly hardy on tree.

**Red Wing**—Another dandy, delicious to eat and preserve and a fine market sort.

**Terry**—Our best Native Plum. Early abundant bearer, delicious to eat out of hand.

**Underwood**—The earliest of all these beautiful plums, ripens in early August. Early and abundant bearer of large fruit; the equal of the best California plums.

**Compass Cherry**—Valuable in the extreme north; very hardy.

**Hennepin**—A popular preserving plum owing to its dark red flesh; good size and quality.

**Elliot**—Productive; large, firm, bright red, good quality, small pit. Very good late plum.

**Tonka**—Very productive; large, dark red, firm, excellent quality; small pit, nearly freestone. One of the best.

**St. Anthony**—A Sand Cherry Hybrid similar to Sapa but more vigorous; very productive. Fruit of good size, purple flesh; excellent for jelly or canning.

**Loring Prize**—Owing to its large size and excellent quality it is in great demand and should be given a trial in all favorable locations.

**Nicollet Cherry**—Nearest to the true sour cherry and for pies or sauce hard to distinguish. Pit small and free; juicy; dull red color. Ripens middle of August. Rather dwarf grower. This new hybrid is very prolific and will please you for a culinary fruit.

**Radisson**—New, early, good quality; excellent market sort.
PROF. HANSEN’S NEW PLUMS

We have fruited these wonderful plums on our grounds and can truthfully say they are the most remarkable creations in fruits of the present day.

Hanska, with its beautiful appearance, high color and rich fragrance and flavor, is a real acquisition.

Opata is a cross between the Sand Cherry and the Gold Plum. Bears the second year; fine quality and as hardy as a willow.

Sapa much like a large Ox-heart cherry, dark flesh and juice. Fine quality. Five-foot trees at three years bear 1 to 1½ bushels, and keep it up. Every home in the country should possess from one to a dozen of these wonderful trees.

Waneta—Best of Hansen’s Hybrids; good thrifty grower; very hardy. Fruit very large and of finest quality.

EUROPEAN PLUMS

German Prune—Large, dark purple, good.

Lombard—Medium, violet, red, juicy, good, hardy and productive, the leading market variety.

Reine Claude—(Bavey’s Green Gage)—Very large, greenish, fine flavor.

Peaches

The Peach is one of our most delicious fruits. By many the tree is considered tender, and the crop uncertain in this latitude, but it is remarkable how many people raise peaches successfully by selecting hardy varieties and by planting in sheltered locations.

The list here offered contains the very best for hardiness and quality. Plant in rich soil.

</tr>
</tbody>
</table>

*Fay’s Prolific*—The leading market variety. Extra large stems and berries, uniform in size, easily picked, exceedingly productive.

*Perfection*—A grand currant, large berry of finest quality: two weeks later in ripening than Fay.

*White Grape*—Very large, yellowish white; sweet or very mild acid; excellent quality and valuable for the table. Productive.

**Strawberries**

Burrill, Dunlap, and Premier, per 10, 25c; per 100, $1.00; per 1000, $6.00.

**NOTICE**—To parties wishing plants sent by mail add 10 cents per hundred to cover cost of postage and packing. We can ship any distance by mail and plants will arrive in fine condition.

*Dr. Burrill*—An improved Dunlap; very fine.

*Premier*—Large size, good quality, and very productive.

*Senator Dunlap*—Medium to large, conical, dark red, firm and of first quality, mid-season. A vigorous grower and usually makes too many plants for best results, unless growth is restricted. It is as productive as Warfield, berries are better colored and a third larger.

**Everbearing**

Champion—Best of all in our estimation.

Progressive—All that the name implies; everybody should grow them.

Mastodon—New; plant a strong grower with berries twice the size of Progressive.

Per 10, 40c; per 100, $2.50.
Raspberries

KANSAS—Jet black, firm and delicious, as large or larger than Gregg. The hardiest black cap known, successfully withstanding the winters.

Plum Farmer—One of the most profitable market varieties as it ripens the crop in a very short time. Berries are large size, firm, thick meated, black with a bloom similar to the Gregg. Very attractive when ready for market. Ripens just before Cumberland.

Columbian—A vigorous grower; canes often ten to fifteen feet in length and over an inch in diameter. Never suckers from the roots. Very hardy, enduring 28 degrees below zero. Fruit very large, dark red, bordering on purple; adheres firmly; rich, sprightly flavor.

Cuthbert—(Queen of the Market)—Large conical, deep, rich crimson; firm, of excellent quality. A vigorous grower, entirely hardy, and immensely productive.

Golden Queen—Bright golden yellow. The flavor is of the highest quality, pronounced by some superior to Brinskle’s Orange. In size equal to Cuthbert; immensely productive; a very strong grower and hardy enough even for extreme northern latitudes.

King—Best early red. Productive.

St. Regis Everbearing Raspberry—This wonderful raspberry marks a new era with this popular fruit. We have a large planting of St. Regis and during September and October we picked crates of the most delicious berries, in fact there were berries on the canes all summer long.

Latham—This is a wonderful red raspberry. The past season on our grounds it beat all the other varieties in yield and the berries were, many of them, one inch in diameter.

Blackberries

Snyder—Extremely hardy; enormously productive; medium size; no hard sour core.

Eldorado—On account of the peculiar thick and elastic composition of the leaf of the Eldorado it stands in a class by itself. Rust or scalding sun does not affect them. If you have been disappointed in growing blackberries, take our advice and try the Eldorado. We have the true blue stock.

Ancient Briton—One of the best. This variety did the best of any on our grounds the past summer, yielding enormous quantities of delicious berries.
### THREE GOOD GRAPES

#### Moore's Early
- Bunch large, berry large, round, with heavy bloom, vine exceedingly hardy. Its earliness makes it desirable for an early market. Its hardiness particularly adapts it to Canada and the northern portions of the United States.

#### Niagara
- Occupies the same position among white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough; quality much like Concord.

#### Worden
- A splendid grape of Concord type, larger, better quality and earlier. Vine vigorous; hardy and productive.

#### HARDY MINNESOTA GRAPES

Hardy Roses

Good strong field-grown bushes that will bloom nicely the first summer.

Prices, except as noted.................................Each, 40c; per 10, $3.50; per 100, $35.00

Frau Karl Druschki—Very large, perfect form and snow white; a vigorous grower and a free bloomer.

General Jacqueminot—One of the most popular of the red roses; brilliant crimson, large and very effective; very fragrant and one of the hardiest.

J. B. Clark—This splendid new Rose is placed by some cataloguers among the Hybrid Teas; but it is perfectly hardy, unusually large and expresses in every way the characteristics of the Remontant type. It is robust in growth, with clean, heavy foliage. Flowers are large and superbly constructed; deep scarlet overlaid with crimson.

Magna Charta—Extra large and full, bright rosy pink; a profuse bloomer and very hardy.

Paul Neyron—Said to be the largest rose in cultivation; bright, clear pink; very fragrant, hardy and a strong grower.

Hardy Yellow Roses

Hugonis—Pale clear yellow; best among semi-doubles; abundant blooms on long arching stems; very early; foliage attractive pale green with red tips; an excellent ornamental plant .................................................................Each, 40c

Persian Yellow—Hardy; great bloomer and delightful color.......................Each, 40c

Austrian Copper—Hardy; a brilliant orange-yellow rose, gorgeous..............Each, 40c

Harrison's Yellow—An old timer of great hardiness and dependability......Each, 40c
Extra Hardy Rugosa Roses

Prices, except as noted..............................................Each 40c, $3.50 per 10

Alba.—Large and beautiful single white flowers about 3 inches across. Bright red seed pods or hips follow blossoms

Belle Poitevine—Clusters of large, semi-double, open blooms of very beautiful pink. Blooms moderately but continuously all Summer.

Conrad F. Meyer—Very large, double, showy, clear silvery rose flowers, strongly fragrant.

Hansa—Large, full, double, red blooms. Profuse bloomer.

Roseraie de l’Hay—Large, double, crimson-red blooms shading to rosy-magenta and of a delightful fragrance.

Rubra—Large, beautiful, single flowers, 2½ to 3½ inches across, of clear pink to bright crimson. Bloom continuously from June to September.

*Blanc Double de Coubert—Pure white, very large semi-double flowers; plants bushy and vigorous.

*F. J. Grootendorst—Small red flowers in clusters; strong grower, bushy, with leathery disease-resisting foliage; abundant bloomer until frost. New and beautiful. Most wonderful rose introduced in many years.

F. J. GROOTENDORST
The Most Popular of all Rugosa Roses

Hardy Climbing and Rambling Roses

Prices, except as noted...............................Each, 30c; per 10, $2.75; per 100, $25.00

Crimson Rambler—Crimson, semi-double; vigorous plant; good pillar and porch climber.

Dorothy Perkins—Shell pink; one of America’s most noted roses; slightly fragrant, borne in great profusion; lasting qualities; blooms in clusters. Vigorous and excellent climber; bright glossy green foliage.

Excelsa—Intense crimson; immense clusters; superior to Crimson Rambler in color and foliage; hardy and vigorous.

White Dorothy Perkins—Pure white sport from Dorothy Perkins, identical in foliage and habit.

Blue Rambler (Veilchenblau)—Violet blue flowers in loose clusters; a rampant grower; something different; hardy.

Climbing American Beauty—Rich carmine, moderately fragrant, large blooms on separate stems, glossy green foliage, heavy grower, very hardy.

Paul’s Scarlet—A very popular red climber.
Climbing Vines

Celastrus Scandens

Each, 25c; per 10, $2.25; per 100, $20.00.

Ampelopsis Engelmanni (Engelmann's Five-Leaved Virginia Creeper)—Hardy climbing vine, five leaved, clings to either wood, stone or brickwork.

Ampelopsis Veitchi (Boston Ivy)—Glossy green foliage that turns to crimson in the Fall. Clings to brick or stone.

Aristolochia Sipho (Dutchman's Pipe)—Although the brownish, pipe-shaped flowers are interesting, the immense heart-shaped leaves are the important feature, furnishing as they do the most complete screening leafage of any cultivated trellis vine.

Bignonia Radicans (Trumpet Ivy)—Flowers trumpet-shaped, deep crimson.

Celastrus Scandens (Bittersweet)—Has pale yellow flowers, followed by pretty orange colored berries and scarlet arils.

Lonicera (Japan Honeysuckle)—Yellow flowered Climbing Honeysuckle. Yellow flowers in pairs; foliage keeps until late in Autumn; very easy grower.

Scarlet Honeysuckle

Lonicera, Sempervirens (Scarlet Trumpet Honeysuckle)—A profusion of scarlet, trumpet-shaped flowers are borne in clusters during the entire season.

Lycium Chinense (Chinese Matrimony Vine)—Really a trailing shrub. The purple flowers are followed by attractive, brilliant crimson fruit.

Wisteria Frutescens (American Purple Wisteria)—A very rapid growing vine, with small, pale-blue, fragrant flowers.

CLEMATIS

Strong Plants. Each 50c; per 10, $4.50.

Clematis Henryi (Large-Flowered Creamy White Clematis)—Large, creamy white flowers.

Clematis Jackmani (Large-Flowered Violet-Purple Clematis)—Large, velvety purple flowers.

Clematis Mme. Edouard Andre (Large-Flowered Red Clematis)—Large, violet-red flowers.

Clematis Ramona (Large-Flowered Blue Clematis)—Large sky-blue flowers.

Clematis Paniculata (Sweet Autumn Clematis)—A strong growing variety with small, star-like flowers; delicately scented.

</tr>
<tr>
<td>Coral Berry</td>
<td>A very hardy shrub, covered with red berries in the fall, which hang on almost all winter. Unequaled for planting in the shade or on the north side of buildings.</td>
<td></td>
</tr>
<tr>
<td>Cottoncaster</td>
<td>A beautiful hardy shrub with glossy green leaves and covered with black berries in the fall. Fine for hedging.</td>
<td></td>
</tr>
<tr>
<td>Deutzia Gracilis</td>
<td>A vigorous shrub, covered with feathery panicles of double white flowers in June.</td>
<td></td>
</tr>
<tr>
<td>Dogwood, Red (Cornus)</td>
<td>A fast growing shrub covered with glossy green leaves, clusters of white flowers in the summer and in the winter is conspicuous because of its bright red bark. Fine for background for shorter shrubs.</td>
<td></td>
</tr>
<tr>
<td>Dogwood, Yellow</td>
<td>Same as above, but with bright yellow bark. The two varieties make an excellent contrast.</td>
<td></td>
</tr>
<tr>
<td>Double Flowering Plum</td>
<td>A large shrub that is completely covered with bright pink blossoms about 11/2 inches across. One of our most beautiful shrubs. 2 to 3 ft.</td>
<td></td>
</tr>
<tr>
<td>Flowering Currant</td>
<td>A medium sized shrub having an abundance of spicy scented yellow blossoms in June.</td>
<td></td>
</tr>
<tr>
<td>Golden Bell</td>
<td>The earliest blossoming shrub. Is covered in early spring with bright yellow blossoms.</td>
<td></td>
</tr>
<tr>
<td>Golden Elder</td>
<td>A rapid growing rather tall shrub with bright yellow leaves and white flowers.</td>
<td></td>
</tr>
<tr>
<td>High Bush Cranberry</td>
<td>A glossy leaved shrub similar to the snowball only the panicles of blossom are flat, and the bush is covered with bright red fruit which it carries well into the winter.</td>
<td></td>
</tr>
<tr>
<td>Hardy Hydrangea (P. G.)</td>
<td>Well known shrub with immense solid panicles of white flowers which turn to pink in late fall.</td>
<td></td>
</tr>
<tr>
<td>Hydrangea Tree</td>
<td>Same as above, but trained to tree form. 3 to 4 ft.</td>
<td></td>
</tr>
<tr>
<td>Hydrangea Arborescens (Hills of Snow)</td>
<td>This bush is more dwarf than Hydrangea P. G. and has its large creamy white clusters of flowers a month earlier. A beautiful hardy shrub that deserves a place in every planting.</td>
<td></td>
</tr>
<tr>
<td>Japan Quince</td>
<td>A medium sized shrub with glossy dark green foliage and showing a profusion of bright red blossoms in May. Fine as specimen shrub on the lawn.</td>
<td></td>
</tr>
<tr>
<td>Lilac (Common)</td>
<td>Its fragrant single purple blossoms have a charm all their own.</td>
<td></td>
</tr>
<tr>
<td>Lilac, Lamark</td>
<td>A beautiful double porcelain-blue variety.</td>
<td></td>
</tr>
<tr>
<td>Lilac, President Loubert</td>
<td>A large flowered double sky blue sort.</td>
<td></td>
</tr>
<tr>
<td>Lilac, Spaith</td>
<td>Enormous clusters of large purplish-red blossoms.</td>
<td></td>
</tr>
<tr>
<td>Lilac, White</td>
<td>Pure waxy white.</td>
<td></td>
</tr>
<tr>
<td>Lilac, Double White</td>
<td>A beautiful sweet scented large flowered white.</td>
<td></td>
</tr>
<tr>
<td>Purple Leaf Plum (Newport)</td>
<td>A hardy ornamental shrub of great value. Should be in every collection of shrubbery.</td>
<td></td>
</tr>
<tr>
<td>Paul's Scarlet Thorn</td>
<td>A hawthorn that has double bright red blossoms. Very pretty.</td>
<td></td>
</tr>
<tr>
<td>Russian Olive</td>
<td>A tall ornamental shrub having silvery white leaves and fruit resembling small olives. Fine for planting behind Spireas, or such shrubs.</td>
<td></td>
</tr>
<tr>
<td>Snowball</td>
<td>Its round balls of bloom and glossy green foliage make this a most desirable shrub. It generally blossoms about Memorial Day.</td>
<td></td>
</tr>
<tr>
<td>Snowberry (Waxberry)</td>
<td>A pretty shrub with pink blossoms followed by large white berries in the fall. Excellent for planting in shade, on the north side of buildings, or in an exposed location.</td>
<td></td>
</tr>

</table>
HARDY ORNAMENTAL SHRUBS—Continued.

Spirea, Golden (Physocarpus)—A fast growing rather tall shrub having bright yellow leaves and white blossoms. An excellent effect can be obtained by planting this behind shorter green-leaved shrubs.

Spirea Van Houtti—The ever popular Bridal Wreath, with its abundance of white blossoms in June. Nice bushes.

Spirea Froebeli—A beautiful spirea with large flat clusters of pink blossoms. It reaches a height of about 4 ft.

Spirea Anthony Waterer—A dwarf type with large flat panicles of rose red blossoms. Fine for border planting, as it hardly ever becomes taller than 2 ft.

Spirea Bethlehemensis—Plume like clusters of bright pink blossoms.

Spirea Arguta—The true garland spirea. Looks like Bridal Wreath, but is two weeks earlier to bloom and has finer foliage.

Spirea Prunifolia—The double white bridal wreath.

Staghorn Sumach—A tall hardy shrub with long fern-like leaves and clusters of bright red berries.

Strawberry Tree—A tall green-barked shrub with bright red berries in the fall, that resemble bitter-sweet.

Syringa Coronarius (Mock Orange)—A tall bush covered in June with white sweet scented flowers resembling orange blossoms.

Syringa Flora Plena—Double white form of Mock Orange.

Tamarix Amurensis—A pretty medium sized shrub with feathery foliage and pink plume-like blossoms. Very fragrant.

Weigela Floribunda—A medium sized bush with red bell-shaped blossoms.

Weigela Rosea—The hardiest weigela. Pretty pink blossoms. All weigelas do best if planted in a sheltered location.

Peonies

We have a very fine collection of this noble flower, and invite your especial attention to our very low prices on good, strong roots of the following named sorts at 40c each; $3.50 per 10; $30.00 per 100, except as noted.

American Beauty—Just like the American Beauty Rose, with delightful fragrance.

Crown of Gold—A very rare and new variety. Pearly white with golden center, splashed with red.

Delachi—Glorious, purplish crimson. One of the best.

Festiva Maxima—The best white, charming, waxy, center splashed red.

Golden Harvest—Fine yellow, blush guard petals.

Grandiflora Rubra—Very late and large, blood red.

La Esperance—Early, delicate pink, sweet scented.

Rachel—Dark purple, very double, one of the finest.

Victoria—White creamy center; fine as a cut flower.

Walter Moyle—The most gorgeous red paeony we have ever seen. A seedling of our own growing; very robust grower, great bloomer and very double.

</table>
Waneta is of American origin and much hardier than the European and Japanese varieties. Fruit of the largest size, bright red and almost freestone, sweet and juicy. Tree is a rugged and vigorous grower, adapted to any good soil; an annual bearer. Has a marked peach flavor.
The one red rose in a million. A very vigorous grower and hardy. In our nurseries it is admired by all visitors.
